**SOLON**

It is assumed that Solon was born in the neighborhood of 600 B.C. and that he was the son of Exekias. His mother, according to Herodotus, was a cousin of Pisistratus' mother. In any case, Solon's family, although noble and respected in Athens was neither extremely wealthy nor powerful. Solon wrote poetry in his youth and might have become a popular reputation in this sphere had he not chosen instead the profession of philosopher-statesman.

Solin, a close friend of Solon, was born in about 570 B.C., son of a wealthy citizen. He studied at Athens, under the famous philosopher, Socrates. Solon lived in Athens from about 580 B.C. until his death in 524 B.C. He was a great statesman and reformer, and his laws and constitution were highly regarded. He is said to have introduced the system of democracy in Athens.
