LADIES' HANDBAG

Gentleman (Chung Chi College)

Neither creates nor destroys beauty with such skill as the female. It seems that they are born with a genius for decoration which cannot be taught, and that of the arts or sciences for creation. Thus, the body constitutes an ideal place for the display of their valuable ornaments; therefore, the handbag is perhaps the most interesting of all these accessories. We try hard to go into minute detail since a full exposition would require a whole volume and might therefore become tedious. The handbag, like other accessories, is designed to enhance beauty, and is created at the height of perfection. My knowledge of this art is limited, therefore, I shall not attempt to describe the handbag in greater detail.

The handbag, like other accessories, is designed to enhance beauty, and is created at the height of perfection. "Hearing what I said, I tried to get in touch with him and I found him. He told me to meet him after nightfall in the woods."

"After nightfall I met him in the woods and asked him to marry me. He only laughed and said, 'This is irreconcilable!'

"You are the only person that I was married to..."

"In the end, Rosanna was a strong girl. Her husband was a sailor. He..."

"Don't ask me. I will tell everybody about it now, including the police."
